

MAHAJUBILEE TRAINING COLLEGE MULLOORKKARA THRISSUR

Institutional policy for fostering research aptitude

This institution provides a space for unbiased quest for knowledge to its stakeholders in order to uncover information through research, where it then disseminates knowledge and transfers technical knowhow to the greater neighbourhood community. The research policy of the college also aims to foster and support a research environment among all stakeholders, especially student teachers and student teacher educators, with the goal of enriching and enhancing professional competence, developing and promoting scientific temper and research aptitudes in all learners in tune with the vision and mission of the college. There are various programmes, creating eco system for innovation and research in education. The programmes are given below.

- Seminar and paper presentation programmes
- Group discussion
- Educational conference
- Projects in different problems in educational scenario
- Action researches in different school problems
- Case study
- Survey for different adolescent problems
